Bracket Mounting Screws	6 ea
Shelf Mounting Set Screws	4 ea

CALIFORNIA PROPOSITION 65 WARNING: This product contains brass hardware components which contain lead, a heavy metal known by the State of California to cause cancer, birth defects, or other reproductive harm.

MOUNTING INSTRUCTIONS FOR TYPICAL DRYWALL APPLICATIONS

Note: Consult your local hardware store for proper mounting to other wall materials.

Tools required: Phillips screwdriver, pencil, tape measure and level.

1. Place one of the Shelf Brackets in desired location.
2. Mark the location of drywall anchor installation. Remove the Shelf Bracket from the wall. Using a Phillips head screwdriver, pierce the tip of the anchor into the wall and turn clockwise until anchor is flush with the wall. *Do not push or pound the anchors into the wall, they are designed to bore into the wall like a screw.*
3. Once all anchors are in place, place the Shelf Support over anchor and insert mounting screws. Turn mounting screws clockwise just until you feel resistance.
4. Using a tape measure and level, determine the location for the second Shelf Support. Repeat steps 2 & 3.
5. Slide your shelving material into the straps.
6. Set screws should be inserted into the threaded holes on the bottom of the brackets to secure shelf.

CARE INSTRUCTIONS

Wipe with a soft, dry cloth. To protect the finish, do not use household cleaners or abrasives.
