

## Pivoting Mirror

**CALIFORNIA PROPOSITION 65 WARNING:** This product contains brass hardware components which contain lead, a heavy metal known by the State of California to cause cancer, birth defects, or other reproductive harm.

### PARTS INCLUDED

Pivot Mirror	1 pc	Drywall Anchors	4 pcs
Support Brackets	2 pcs	Mounting Screws	4 pcs
Mounting Plates	2 pcs		

### MOUNTING INSTRUCTIONS FOR TYPICAL DRYWALL APPLICATIONS

**Note:** Consult your local hardware store for proper mounting to other wall materials.

Tools required: Phillips screwdriver, pencil, tape measure, and level.

1. Loosen set screws from bottom of both support brackets to release the mounting plates. (It is a good idea to back off the secondary set screw as well.)
2. Place one of the mounting plates in desired location. Lightly mark the location of the mounting holes.
3. Remove the mounting plate from the wall. Using only a Phillips head screwdriver, pierce the tip of the anchor into the wall. *Do not push or pound the anchors into the wall; they are designed to bore into the wall like a screw.* Turn clockwise until anchor is flush with the wall.
4. Once both anchors are in place, install the first mounting plate with the provided screws and tighten.
5. Using a tape measure and level, determine the location for the second mounting plate (center of first plate to center of second plate). Repeat steps 2 - 4.
6. Place one Support Bracket over the mounting plate (making sure set screws are facing down). Tighten the set screw.
7. Press the second Support Bracket onto one of the mirror pivot post and retighten the set screw.
8. Carefully lift the mirror and slide the free pivot post into the mounted support bracket. Clip the mirror and pivot mirror bracket over last mounting plate and tighten all set screws. If necessary, loosen wall mounting screws and adjust mounting bracket to obtain proper horizontal alignment on wall. Retighten screws and remount.

### CARE INSTRUCTIONS

To maintain and protect the luster of all products, clean with a soft, damp cloth only. To protect the finish, do not use household cleaners or abrasives.
