

REJUVENATION®

Cabinet Latch Installation Instructions

This latch includes hardware that is designed to mount securely cabinet door and frame. If using Cabinet Latch with double doors, install C8478 Cabinet Ball Catch (sold separately) on passive door.

PARTS INCLUDED

- 1pc Cabinet Latch with catch
- 6pc #5 oval head wood screws

MOUNTING INSTRUCTIONS

1. Carefully determine a desired Cabinet Latch location. Using a pencil, mark the locations for each screw. ***You Must Drill Pilot Holes to Prevent Screws From Breaking.*** Use a 5/64 inch diameter drill bit for hardwood or 1/16 inch diameter drill bit for softwood, along with an appropriate drill to make pilot holes in the cabinet.
2. Attach the Cabinet Latch using a screwdriver, being careful not to let the screwdriver strip the screw or scratch the Cabinet Latch finish. Do not overtighten. **Do not attempt to drive screws with a power drill/driver (solid brass screws will break off).**
3. Repeat step 2 for the Catch.

CARE INSTRUCTIONS

Wipe with a soft, dry cloth. To protect the finish, do not use household cleaners or abrasives.
